

A brilliant end to buddy punching.

The **TTELITEEK Biometric Time Clock System** eliminates buddy punching and automates employee time and attendance processing. The time clock scans employee finger and uses biometrics to instantly identify employees and record punches. Keypad enables optional supervisor-approved pin number entry. Manages weekly, bi-weekly, semi-monthly, or monthly pay periods. Includes TimeTrax™ time and attendance software download. Edit employee time cards and run reports including: *Time Card, Attendance, Employee Punch, Detail Payroll, Employee Detail, Hourly Summary* and *Employee Seniority* reports. Automatically calculates employee hours, overtime and holiday hours. Creates export files for most major payroll providers, including *ADP®, Fidelity®, Heartland®, and PayChex Preview®*. Directly syncs with Quickbooks®. Simple to set up and easy to expand with employee upgrade packages, and/or TTELITEEK Add-On Time Clock Terminals.

- Scans employee finger to positively identify each employee and record punches¹
- Audible beep and card number screen display confirms successful employee punch
- Eliminates need for paper time sheets or time cards
- Includes TimeTrax™ time and attendance software download
- Automatically downloads employee punches to PC software
- Accommodates unlimited employees with *Employee Upgrades*²
- Enables employee time card editing
- Features payroll reports
- Manages weekly, bi-weekly, semi-monthly or monthly pay periods

¹Time Clock terminal does not store actual fingerprint.

²Employee software upgrades & additional terminals sold separately. Registers up to 1000 employee finger scans per terminal.
