Mount Terminal

To mount terminal.

- Install mounting bracket using provided mounting screws. Be sure the four metal tabs are facing upward.
- Additional holes are provided if mounting onto an electrical box.
- Push terminal onto mounting bracket aligning four tabs on bracket with four matching slots on back of terminal. *Be sure to write down the terminal serial number before mounting.*
- Slide terminal downward until locking tab clicks into place. When properly mounted, terminal cannot be removed from the bracket without using the included wall bracket release key to disengage locking tab.
- Cables may be rooted through channel at base of terminal or by drilling a hole in the rectangular section of the mounting bracket and through the wall for concealing cables.

To detach terminal.

- Insert key (tab facing outward) into narrow slot located on bottom of terminal to right of cable access cutout.
- Push key all the way up into slot. Key will slide easily until last 1/2 inch until some resistance from locking tab is felt.
- With key fully pushed into slot, slide the terminal up and off mounting bracket.

Using Time Clock

Wave prox badge within two inches of target area.

If employee badge number is successfully read, the time clock terminal will beep and the badge number will be displayed briefly on terminal screen.
